

Where are your people?

The Defense Medical Human Resources System – internet reports current and future human resource needs for the Department of Defense Military Health System. DMHRSi identifies staff, where they work, filled and vacant positions, training records, and all hours charged to each work center.

Product Features

- Integrates human resource data from multiple sources
- Reports personnel readiness data
- Tracks personnel education, training and labor costs

Benefits to the Military Health System

- Allows ready access to essential manpower data
- Simplifies and centralizes medical personnel asset visibility
- Supports military healthcare human resource management
