

## Online learning

The Military Health System Learn [MHS Learn] is an enterprise e-learning and collaborative portal for training throughout the Department of Defense Military Health System. MHS Learn has an expanding collection of medically related course offerings and actively partners with other government agencies to provide quality training to the MHS staff and beneficiary populations. Learn more at <https://MHSLearn.csd.disa.mil>.

### Product Features

- Delivers access to enterprise level medically related training from any location
- Offers more than 1,800 courses online 24/7
- Supports traditional classroom, Web-based training, “Webinars” and discussion forums

### Benefits to the Military Health System

- Provides a single unified learning delivery system
- Offers unified course cataloging and classes worldwide
- Promotes continuing education and content sharing with the Uniformed Services University and the Department of Veterans Affairs
